

FOR NOW AND FOR THE FUTURE

Nowhere is the McCrea mission more important than the area of long term financial planning. By definition, if you instruct us to provide you with this service, then our expectation is that we will be working with you to achieve your financial and lifestyle objectives – for a lifetime!

Remuneration review

We can review the best way an individual employee or company director takes their remuneration.

This may take the form of:

- · Salary and bonus
- Dividends
- Benefits in kind, taxable and non taxable
- Employee benefit package tailored to the individual and company
- Personal risk and protection packages
- Pension Company or individual
- Share option schemes, approved and unapproved
- Or indeed a combination of the above, as appropriate

Annual tax reviews

McCrea Financial Services are well versed in advising individuals on the bigger taxation picture looking at strategies which could be profitable to our clients in the short and longer term, complementing the package on offer from employment. This includes structuring the remuneration packages to allow for:

- 45% tax band planning
- Higher rate tax planning
- Using the clients available reliefs and allowances each year
- Pensions, BPR Schemes, Enterprise Investment
 Schemes, Venture
 Capital Trusts

- Capital gains tax allowances and ISAs
- Reinstating any lost personal allowance due to high earnings

Financial protection review

We carry out a risk management assessment to ensure our clients are adequately protected for almost any event that could impact on their financial future.

- Loss of earnings through ill health
- Death of the main earner or other family member
- Incapacity through a serious illness
- Possible benefits of private medical insurance

Looking after peoples financial affairs is about building trust and working together.

Building a portfolio of assets

McCrea can assist individuals to secure their first investments, whether it is the first property or bespoke investments and pensions. Our service includes:

- Full mortgage advice and lending provision via strategic partners
 private or commercial,
 - private or commercial, foreign and domestic
- Effective targeting for pensions and investment
- · Goal planning
- Planning for future events

The Financial Conduct Authority does not regulate taxation advice, trust advice, school fees planning, deposit accounts and some aspects of commercial mortgages, buy to let mortgages and offshore investments. Your home or property may be repossessed if you do not keep up repayments on your mortgage. The value of investments (including property) and the income derived from them may go down as well as up. Accessing pension benefits early is not suitable for everybody and is likely to reduce your income at retirement. It is important to carefully review your individual circumstances before making a decision.

How many IFAs appreciate that when looking after peoples financial affairs it is about building trust and working together for decades not weeks.

How many IFAs obtain the majority of their new clients from referrals from happy existing customers who are comfortable passing their friends and families on to a firm they can trust.

How many other IFAs spend time and effort working for, running events and raising funds for charity?

How many IFAs do you know support and sponsor local sportsmen and women and help promising children in sport to achieve their goals?

Most of all, we care - about the important things in life, and about you - our clients.
